Subject: Re: Pending Aldicarb new uses - Requesting new product registration submission materials and meeting to discuss.

Good afternoon Debra,
Thank you very much for this information. We are looking forward to our call Monday at 10.00 am, and will get everything to EPA before the close of business Monday.

Very best,

Antoine

Hi Antoine, Ann, and Larry,

This email is follow up to the voicemails that I left early this afternoon.

It was determined that we will be completing the registration of the supplemental labelling and the new Section 3 product registration for oranges and grapefruit in Florida concurrently.

Thus, based on the short timeline that we have to complete these registrations, we need you to have the submission materials for this new product registration, ready for submission to the agency by close of business Monday, December 14, 2020.

We would like to have a meeting Monday (12/14) morning at 10 am or 11 am (ET), whichever is most convenient for your group, to discuss how it will need to be submitted and what will need to be in the cover letter for this submission (i.e., PRIA code, registration conditions, etc.).

Please let us know which time works for you and I will send out calendar invites for the appropriate times.

Regards,
Debra
